brix

Introduction

BRIX delivers standardized meeting solutions that elevate every meeting space to a professional level.

Whether it's a small, medium, or large meeting room, BRIX provides a complete, reliable, and easy-to-install setup. With fixed configurations, high-quality AV technology, and a consistent user experience, every meeting becomes seamless and productive.

BRIX scales with your organization, accelerates deployment and maintenance, and ensures every room is ready for hybrid collaboration from day one. Choose AVEX BRIX to make meetings smarter, more consistent, and future-ready.

brix Meeting rooms

Meet our BRIX Portfolio

- Noise reduction technology
- Easy content sharing

brix Meeting rooms

Collaboration

A complete meeting room solution for modern hybrid collaboration. High-quality audio, video and content sharing ensure every participant can be seen, heard and engaged, whether they join in the room or remotely.

Mounting Options

- Trolley

Key Features

- One-touch meeting join
- High-quality audio and video
- AI-powered camera framing
- AI-Noise suppression
- Easy content sharing

Optional add-ons to your BRIX

You can add additional modules to the BRIX products. This way the standard remains the same, while still providing flexibility to add desired functionality or requirements that can be different in each meeting room.

Logitech Extend

- Adds 'Bring your own meeting' functionality to your meeting room
- Connect, charge and collaborate through a single USB-C connection.
- Supports flexible room designs and longer cable distances.

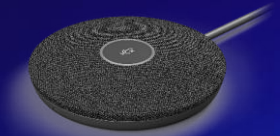

Wireless Presenting

- Share content wirelessly from your laptop, tablet or mobile device.
- Creates a clean and flexible meeting experience.

Wireless Collaboration

- Bring your own meeting platform wirelessly into the room

Additional Microphones

- Improves voice pickup across the entire meeting room.
- Improves speech clarity for participants seated further away from the video bar.

brix Digital Signage

Narrowcasting

solution for meeting rooms
& digital signage

brix zero

What is BRIX zero?

Make your meeting room and digital signage AV more sustainable

Standard audiovisual installations can hold back your sustainability ambitions. With BRIX zero, you take responsibility for your entire value chain, report transparently, and demonstrate that you take sustainable leadership seriously.

With a BRIX zero AV solution, you gain:

- Full control over the sustainability impact of your AV environment
- Transparent reporting for stakeholders and regulatory requirements
- Recognition as a responsible sustainability leader
- Measurable CO₂ reduction across your meeting rooms and digital signage
- Clear, defensible sustainability policies without grey areas
- A future-ready and credible sustainability strategy
